

SALT & LANTERN

A BLOOD ON THE CLOCKTOWER HOMEBREW SCRIPT

The town

13 Townsfolk / 4 Outsiders / 4 Minions / 4 Demons / H = homebrew

TOWNSFOLK

13 characters

Chef

You start knowing how many pairs of evil players there are.

Investigator

You start knowing that 1 of 2 players is a particular Minion.

Empath

Each night, you learn how many of your 2 alive neighbors are evil.

Fortune Teller

Each night, choose 2 players: you learn if either is a Demon. There is a good player that registers as a Demon to you.

Slayer

Once per game, during the day, publicly choose a player: if they are the Demon, they die.

Virgin

The 1st time you are nominated, if the nominator is a Townsfolk, they are executed immediately.

Ravenkeeper

If you die at night, you are woken to choose a player: you learn their character.

Cartographer

H

You start knowing how many seats away the nearest evil player is.

Lighthouse Keeper

H

Each night*, choose a player (not yourself): they are safe from the Demon tonight. The next day, all players learn who you chose.

Harbourmaster

H

Once per game, during the day, publicly close the harbour: nobody dies tonight.

Pearl Diver

H

Each night*, choose a player who died at night: you learn their character.

Navigator

H

Once per game, at night*, choose 2 players: you learn how many alive evil players sit between them, clockwise from the 1st.

Ferryman

H

If you die, choose another dead player: if they are good, they are resurrected tonight.

Each night* means every night except the first. **H** marks one of the 12 homebrew characters.

Ravenswood Bluff has a harbour now, and a harbour needs a light. On other nights, somebody moves the lantern.

SALT & LANTERN

A BLOOD ON THE CLOCKTOWER HOMEBREW SCRIPT

The strangers & the sea

Outsiders are good. Minions and Demons are evil. Abilities can change alignment.

OUTSIDERS

4 characters

Drunk

You do not know you are the Drunk. You think you are a Townsfolk character, but you are not.

Recluse

You might register as evil & as a Minion or Demon, even if dead.

Stowaway

H

Abilities that count or measure seats treat your seat as empty.

Albatross

H

If you are executed, the player who nominated you dies tonight.

MINIONS

4 characters

Poisoner

Each night, choose a player: they are poisoned tonight and tomorrow day.

Devil's Advocate

Each night, choose a living player (different to last night): if executed tomorrow, they don't die.

Wrecker

H

Each night, choose 2 players: tonight, if a good player's ability would choose either of them, it chooses the other instead.

Smuggler

H

Each night, choose a player: you learn what they learned tonight.

DEMONS

4 characters

Imp

Each night*, choose a player: they die. If you kill yourself this way, a Minion becomes the Imp.

Pukka

Each night, choose a player: they are poisoned. The previously poisoned player dies then becomes healthy.

Siren

H

Each night*, choose a player: they die. The 1st time you choose an Outsider, they do not die: they become evil instead, and learn who you are.

Kraken

H

Each night*, choose a player: they die. If a Minion died today, you may choose a 2nd player: they die too.

Each night* excludes the first night. H = homebrew. All character abilities are public.

SALT & LANTERN

A BLOOD ON THE CLOCKTOWER HOMEBREW SCRIPT

Public rulings & night order

Read before play. These are the script author's homebrew rulings and jinxes.

Seats & distance. Chef, Empath, Cartographer and Navigator skip the Stowaway's seat; other choices, votes and deaths are unaffected. Cartographer uses the shorter direction (a neighbour is 1). Navigator counts alive evil players strictly between the chosen endpoints, clockwise from the first; a Stowaway endpoint uses its physical seat.

Wrecker & restricted choices. Only good players' choices at night can be swapped. Except for the Ferryman jinx, a redirect happens only if the replacement is a legal target; otherwise the original choice stands. Pearl Diver can be redirected only to another player who died at night. The Lighthouse Keeper's dawn announcement names the player actually protected.

Lighthouse Keeper & Pukka / Siren. Safety blocks the Demon's effect on the protected player, including Siren conversion. A protected Pukka victim does not die and becomes healthy. A blocked Siren conversion remains available.

Harbourmaster & Pukka / Siren. A closed harbour prevents every night death, including the Albatross curse, and blocks Siren conversion without spending it. The Pukka's previous victim becomes healthy; the Pukka still poisons a new player. Ferryman resurrection can still happen.

Albatross timing. The cursed nominator dies at dusk, before the Poisoner acts. Ravenkeeper and Ferryman can trigger from that death. Lighthouse Keeper protection does not stop the curse.

Execution is not death. Devil's Advocate protection does not prevent an Albatross curse: it triggers on execution. A Ferryman who survives execution has not died and makes no crossing. A Minion who survives execution does not enable the Kraken's extra kill.

Siren, Drunk & Ferryman. A converted Outsider keeps their character and ability but is evil, is not a Minion, and cannot be resurrected by the Ferryman. A converted Drunk learns that they are the Drunk and still has no ability. Recluse misregistration remains possible.

Ferryman & Pearl Diver. Ferryman chooses another dead player, good or evil, at death by day or at their night step. If nobody else is dead, there is no crossing. If the Wrecker chose both, a good Ferryman's night choice redirects back to the Ferryman; only a good final target returns. Used once-per-game abilities stay used. Pearl Diver may read any night death, never an execution; the Drunk reads as Drunk, a starpassed Imp as Imp, and a Recluse may misregister.

Kraken & Smuggler. The Kraken's extra target must be different; a Minion must actually have died during the day just ended. Each target checks protection separately. Smuggler receives exactly what the target learned that night, including false information; nothing learned gives no information.

Drunk or poisoned. Information can be false and homebrew effects fail. A Harbourmaster declaration still spends the ability if drunk or poisoned. Ferryman must be healthy and sober when they die; the Keeper's public announcement may be false when their ability malfunctions.

NIGHT ORDER

Wake only eligible characters. Triggered effects occur when applicable.

FIRST NIGHT

Evil team information (7+ players) / Poisoner / Wrecker / Devil's Advocate / Pukka / Investigator / Chef / Empath / Cartographer / Fortune Teller / Smuggler

OTHER NIGHTS

Dusk deaths / Poisoner / Wrecker / Devil's Advocate / Lighthouse Keeper / Demon / Ferryman / Ravenkeeper / Pearl Diver / Empath / Fortune Teller / Navigator / Smuggler
